6 Reasons why you should buy your used FORD Car from an Authorized Ford Dealer

- 1 All used cars sold by authorized Ford dealers are guaranteed to be as represented.
- 2 All used Fords are reconditioned with genuine Ford parts only by authorized Ford dealers. These are charged against the car at 25 per cent off list prices. The buyer gets the benefit.
- 3 A clear title is given with every used Ford car, ensuring the buyer against the risk of buying a car that has been stolen or unlawfully converted.
- 4 The year of the car is guaranteed to be as stated by the authorized Ford dealer.
- 5 The Ford Motor Company of Canada, Limited, allows only responsible business men to sell its products, assuring fair and just treatment in all dealings.
- 6 The authorized Ford dealer is a permanent business institution in this community. He cannot afford to jeopardize future business by selling anyone an unsatisfactory car.

And You Get This Guarantee

If any Used Ford car purchased from an authorized Ford dealer is not as represented it may be returned within seven days and the purchase price will be credited on any other used or new Ford car

By Order,
Town of Vulcan.

FOOTBALL

To win the first game, and against a good team, is surely sufficiently auspicious for the opening of the football season at Vulcan. To register a win in the first game is the record of the local team in their game on Good Friday with the Ogden team from Calgary, and there were some among the satisfied fans sufficiently optimistic to predict that the boys have started on a season that will be even more successful than last. The game was interesting and in spots there was evidence of that excellence which is expected of the boys at mid season, and anticipations for a start were fully realized. One feature which merits comment is the fact that the game started on the nick of time. The play demonstrated the general superiority of the local team over their opponents, Vulcan scoring first and were never passed, and once were three in the lead. The final count was five to four. Several new players and many old men were on the line up, and the measure of them all was more or less taken for a permanent place on the team, the personnel of which will be changed somewhat to meet the high standard set for the club. The game furnished fine entertainment for a large company of fans.

Announcement of a game here with a Lethbridge team on Saturday, April 30, is probable.

Eight or ten handmen of the new brass band at High River drove over to Vulcan one night last week to have a practice with the local band. It was a fine idea, and the boys had a blow together like real neighbors, following which they lunched in a party at the cafe and talked music and other matters. Just such visits as this are not only a pleasure to those who participate but cultivate an inter-town spirit which is commendable and advantageous.

Shari

LOCAL ITEMS

Hotel Royal, near C.P.R. station, on main street, Vulcan Rates 50c., 75c., \$1.

Master Jack Lebeau was taken to the hospital at Calgary on Wednesday night. Appendicitis.

Baseball game, Sunday, April 24th, at 2:30, White Sox vs. Queenstown, at the Sunny Glen diamond, eight miles east and three miles north of Vulcan.

Mr. B. R. Lommatsch, of Vulcan, was in attendance at the annual meeting of the Canadian Silver Fox Breeders' Association, held this week in Calgary.

Strayed from the local stock yards, on April 13th, one large black hog, weight about 270 lbs. Reward for recovery, Vulcan Co-operative Co., Vulcan.

The list of guests at the joint meeting of the Canadian Clubs and luncheon at Calgary in honor of His Excellency Governor-General Willingdon and Lady Willingdon, printed in the Calgary dailies, includes the name of Mr. H. J. Maher, of Vulcan.

Miss Pauline Lucas recently entertained the members of the Maple Leaf Girls' Club, and it was a peppy and happy party. Games were a feature of the fun, and in the prize events Miss Irene Willette and Miss Theresa Smith were the winners. Dainty lunch was served.

The schedule of the Wheat Belt Football League, 1927, has been finally adopted. The opening will take place on June 1st, and all six teams in the league will play on that date.

The teams constituting the league are Union Jack, Claresholm, Vulcan, Ensigns, Okotoks and the Royal Canadian Air Force at High River. These teams are being splendidly supported in their several districts and will no doubt make a league that will produce excellent football entertainment. The teams are fast being put into shape, and the fans are keenly anticipating the opening.

Rev. J. N. Brunton, at the United Church, on Easter Sunday morning, officiated at twelve baptisms, and the following were baptized: Robert Williams, infant son of Mr. and Mrs. F. W. Griffin; Lawrence Charles, infant son of Mr. and Mrs. C. W. Robson; Betty Margaret, infant daughter of Mr. and Mrs. Clarence Sage; Norma Beth, infant daughter of Mr. and Mrs. J. McLaggan; Allan David, infant son of Mr. and Mrs. W. F. Herman; Shirley Elizabeth, infant daughter of Mr. and Mrs. W. J. Robson; Victor Alvin, infant son of Mr. and Mrs. Alvin Fulton; Marion Norma and Jean Elizabeth, daughters of Mr. and Mrs. Clare Dunham; Kenneth Grant, infant son of Mr. and Mrs. Melvin Fulton; Alvin Alexander and George Calvin, infant sons of Mr. and Mrs. R. G. Love.

Terrific winds, which have been frequent this spring in the Vulcan district, have been responsible for soil drifting to an extent which might be termed a menace. The last hard blow, on Easter Monday, was preceded by a splendid little rain and was accompanied by snow in considerable quantity. This latter has stayed the seedling for a time, but the moisture has greatly improved the farming conditions, and general operations are in swing that will cover a greater acreage than last year or that is usual. Spring can be said to be late, but not to a degree that will make any material difference. This is not news to local people, but will be read with interest by subscribers afar off who want to know of conditions here, and there are many.

LOCAL ITEMS

The clean-up in the back yard has started. The volunteer workers will not require the advice of the municipal health authorities or the persuasion of the town constable.

Mrs. Alex. Bowie arrived in Vulcan on Good Friday, just returned from a visit of several months to Scotland, completing a trip filled with pleasures and sights and experiences of interest.

When all is said and done, says the Shelburne Economist, loyalty to your own community in buying is loyalty to yourself. The dollar you spend at home has the best chance of rolling back your way.

Rev. J. W. Jenkins, minister of the First Church of Christ, will preach in the Old Fellows' hall, Vulcan at 3 p. m., Sunday, April 24th, and at Kirkcaldy at 12 o'clock. All not worshipping elsewhere are cordially invited to attend.

By advertisement in this issue of The Advocate announcement is made of Mr. George Monkman going into the dry and transfer business, and real service is offered where and when men and teams are required. Let George do it.

Mr. Oscar Tildeman is back to Vulcan from the hospital in Calgary. He is short on weight, pale of complexion and moves without speed, but he is on the way to normal after a period of surgical and medical treatment, and his friends are glad.

Miss Maxine Mutz returned to Vulcan on Monday from the hospital at Calgary. She can now talk and walk a bit and is able to be about the house, an indication that is gratifying to many anxious friends. Her's has certainly been a wonderful recovery.

Neatly printed cards, bearing the schedule of games in the Wheatbelt Football League, are being distributed with the compliments of the Union Jack club. This club is showing real pep in every department, and have started to put the grounds in real shape at Union Jack. This is the only team that registered a win against Vulcan last year.

Comment has been general as to the excellence of the music at the picture show on Saturday night, rendered by Len Davis and his Arcadians, an orchestra with headquarters now at Vulcan. The opera house management will make the effort to secure this popular organization for every week end picture.

The next meeting of the Vulcan Women's Institute will be held in the United Church parlour, on Friday, April 29th, owing to the basketball course falling on the regular meeting day in May. Paper by Mrs. A. T. Martin, "Shortcuts for the busy housewife"; roll call, "Helpful hints in house-keeping."

The cantata, "Song of Sixpence," offers splendid entertainment for Monday night. The musical offering will be under the direction of Miss Clara D. Wang, and will be rendered by the Vulcan junior choir, composed entirely of the young people of our local families. They will be assisted by soloists on the piano and violin.

The Easter services at the United Church on Sunday evening had a special interest owing to the fact that they were broadcasted by radio, Mr. A. J. Ober operating the apparatus which gave to radio fans in the district the service and music which so delighted attendants at church. Mr. Ober has also lately been broadcasting music by Len Davis and his Arcadians and selections of various kinds by other local artists. Reports are being received of the coming in of the service and programs.

Vulcan certainly gave a splendid reception to the Alton Dramatic Club in their presentation of "The Arizona Cowboy," on Thursday night of last week. The audience was greater than the seating capacity of the opera house, and as the play proceeded, those present expressed by applause their appreciation of the performance by neighbors and friends, who demonstrated a talent that provided fine entertainment. There was also in the event a feature of community co-operation, referred to by Mayor Hutchart in a short address previous to the last act. The proceeds were split fifty-fifty between the dramatic club and the junior tennis club, and the affair was boosted by the Elks and patronized generously by the public.

LOCAL ITEMS

Born, at Kirkcaldy, on April 18th, 1927, to Mr. and Mrs. Wm. Saunders, a daughter.

Ground has been staked on the west side of town as the location of a fair-sized house to be erected by Mr. C. B. Shimp. Mr. D. O. Robinson will do the building.

Anglican services at St. Aldhelm's Church, Vulcan, Sunday, April 24th: Bible class and Sunday school, 10 a. m., morning prayer 11 a. m., evensong 7:30. Mr. Kemp will officiate.

Mr. James Donaldson was down town on Tuesday, the first time following an illness which has kept him at home and in bed for a week or two. His appearance bears witness to his illness, but he is fast coming back.

Now, when the subject of the change of light service is being much discussed, and when things generally are being fixed-up, might be a good time to consider the improvement of the post which occupies a place in the centre of the intersection of the main streets.

The Advocate printery has this week produced the prize lists for the Marquis School Fair, and these will at once be circulated by Mr. Percy Haslam, the energetic and efficient secretary. Marquis is the neighbor to the Vulcan and District fair, and it is not boast to say that there are none better.

Tickets are selling splendidly for the dance and draw being promoted by the local Canadian Legion—the Vets. The object, to create a fund for the building of new club quarters and providing other accommodation that is in demand, has a general public appeal, and the results thus far are indeed gratifying.

Painters are touching-up the signs on the Bank of Commerce, which are appropriately written in gold. Speaking of signs, Vulcan has a collection that certainly do not demonstrate art to any appreciable degree. It might profit the town if there was a campaign for better signs in connection with the usual annual spring clean-up and paint-up.

Mrs. (Dr.) Campbell, of Claresholm, was an Easter visitor in Vulcan a guest at the home of Mr. and Mrs. O. B. Roe. Mrs. Campbell brings a report of enterprise from her home town, where a new covered skating rink is being promoted, the question of a municipal hospital is being discussed, and a baseball club has already been organized. Miss Leta Roe returned with Mrs. Campbell to spend the balance of the school holidays at Claresholm.

Plans are being devised and considered for the proper celebration in Vulcan of Dominion Day, this time the Diamond Jubilee of Confederation. As previously announced, the town council has determined to continue the established annual event and to provide the special features which the importance of the occasion demands. The Dominion committee on the jubilee celebration advises the merging of the efforts of the people in centres and Vulcan geographically and otherwise fits into this idea, and with the facilities to command should stage an event worthy of this day in the history of Canada.

When is the vote on the hospital question? This is the query that has several times been put to The Advocate, and indicates an interest that is gratifying to supporters of the scheme. The answer will be given in these columns immediately after the date has been determined by the provincial authorities, and this requires some little time and there is a procedure that must be followed and this also requires time, and up to the present everything has been accomplished with exceptional speed and the information is that the pace in the proceedings will be maintained. In the meantime discussions and conversations overheard strengthen the impression that the hospital plan will have almost unanimous endorsement.

During the past week or two engineers and other officials of the Calgary Power Company have been in Vulcan and district in connection with the mapping of the route of the transmission lines of the company. The line will enter Vulcan from the north-west direction. Mr. Thompson was several times recently in conference with officials of the Vulcan Light and Power Company, and the present prospects are that the local company will retain their present plant and become the distributors here for the bigger concern, and Mr. Thompson assures The Advocate that the arrangement will mean a considerable reduction in the price of light and power to local consumers. It will also add one day a week—Sunday—to the service. Everything indicates that all will be satisfactory to everybody. Definite details may be expected soon, as the line will likely be in here in the course of two or three months.

LOCAL ITEMS

The advertising of a production by the Blackie United Church Dramatic Club contains the announcement of a specialty dance by Miss Laverne Vaughn, of Vulcan.

Mr. W. N. Arthur comes from Empress to join the staff of the Bank of Commerce at Vulcan, and to succeed Mr. A. C. Johnston, who has been transferred to Bassano.

Victoria Day is not much more than a month away and the time is not more than sufficient to dig up flags and bunting necessary for decorations on that date, and on Dominion Day and other holidays.

The young people's monthly service will be held at the United Church on Sunday evening at 7:30. Addresses will be given by Miss Mayme Lebeau and Miss Leta Roe. Music will be rendered by the young people's society. Everybody welcome.

Mrs. J. H. Harback spent last week in Edmonton, where she attended the provincial meeting of the Women's Missionary Society of the Presbyterian Church. Much gratification was felt by the fact that not only had all parts of the province exceeded their allocations, but every department of the work showed great progress.

The figures on the bulletin board at the post office are creating an interest, indicating as they do the start being made by the young lady candidates in the ticket-selling campaign in connection with the coming Elks' fun farces. The votes are being counted daily, and each day you can tell where your favorite candidate stands.

Mr. Henry Ernst is now the Paige car dealer in the Vulcan and Arrowwood districts, and handles the Victor Northern Electric Radio and the Orthophonic Phonograph. This announcement is made by large advertisement in this issue. Mr. Ernst needs no introduction in the districts named, having been a former resident for some years in the community.

The southern daily featured the fact that a mother cat at Pincher Creek had accepted into the family a number of fox pups. We are ahead of that at Vulcan, for the idea has been practiced for some time at the fox farm operated by Mr. Barney Lommatsch, and The Advocate recently carried an advertisement for the local fox man for a number of mamma cats.

Have you observed that no up-to-date business man neglects to show his windows? Some merchants neglect advertising. The window is seen by those who pass the store and by no others. The newspaper carries the show window, as it were, into the homes of the town and district and gives the people an idea of the goods carried, and the prices at which they can be secured.

Vulcan is represented always where there is anything worth while. King Dan, the dog aristocrat owned by Mrs. Errett King, was an entry in the dog show at Lethbridge on Good Friday, and won two seconds in classes of ten, and was second in one class to the best dog in the show. This was the first show of the kind held in Lethbridge and it was surprisingly big and exceptionally good. Mr. and Mrs. King and Master Harold King attended.

Baseball is still a problem in Vulcan, and as the time approached when a team is being the more considered as a necessity to the success of coming events, the question of organization continues to be discussed and to a greater degree. In the meantime comes reports of the formation of clubs and leagues elsewhere, and it might be that even yet Vulcan will become possessed of the spirit. There is a proposition on the Maelred line to create a league to consist of Claresholm, Stavely, High River and two Calgary clubs.

The regular meeting of Good Deeds Women's Institute was held on April 14th at the home of Mrs. H. McMaster, and was opened with a salute to the flag, reading of the creed and singing O Canada. Useful hints on housecleaning were given in response to roll call. Reports of each district in connection with Mothers' Day were received with hearty applause. Mrs. Forrester made interesting report on rest room in Vulcan. Mrs. Hungerbuhler made a contribution of \$2 to the proceeds of the social recently held at Richmond school. A motion by Mrs. J. Lucas and Mrs. P. Andrews authorized the payment of all bills. Arrangements were made for a flower sale at the home of Mrs. Jesse Gothard on May 12. Mrs. H. R. Montgomery was appointed delegate to the provincial conference at Edmonton in May. There was a sing-song, after which a dainty lunch was served by the hostess. The next meeting will be held on May 12th at the home of Mrs. Gothard, and roll call is to be answered by naming a favorite hymn.

To be "As Good as McLaughlin-Buick" a car would need to have

A Six-Cylinder Valve-in-Head Engine;

EASTER

Easter has once more come and gone. Easter proves the mighty reality of idealism. Easter is God's promise and humanity's hope of a regenerated human race. Easter is the rainbow reaching from heaven to earth with its heavenly promise of better things. Right and peace will yet kiss each other. Good will yet take the place of ill will. The healing of love will heal the scars of hate. The night of every grave has its morning; even the grave of world-wide peace. Out of the dark and bloody soil of strife will surely blossom the lilies of brotherhood, peace and progress. Easter knows both sides of life, the tragic and the triumphant. But it believes that the triumphant will triumph. In the bright lexicon of this day there is no such word as failure. "Be of good cheer, I have overcome the world." Easter confirms the undying faith of human hearts. How do we know that better days are ahead? We don't know. Yet who would predict today that the dead rose bushes will ever come to life again? Or that frail song birds will ever return with their sun-kissed songs? Yet these things will be. Easter says, "Look up, God reigns, and the universe is secure."

SECRET OF POPULARITY

Many folks, particularly young people of reserved natures, worry because they are not "popular." They envy folks who always have admirers and friends. Many people of superior intellect look down on popularity. They feel it shows a too easy-going nature. They hold that if a person is to live sincerely and do his duty, he must often antagonize others, and make himself exceedingly unpopular. Popularity comes in different ways. In the old days of free liquor a lot of people acquired popularity by the free dom with which they "set 'em up." This was the basis on which many politicians got their start. They were always ready to line up their friends in front of the brass rail and have several rounds "on me." Many people win popularity by free spending, by living extravagantly and scattering cash in all directions. On the other hand many people acquire popularity by devoting themselves to some public cause. College boys who carry on student activities, usually acquire popularity. They are entitled to it because they have to devote much time to maintaining the reputation of their institution. Similarly in community life. Many people acquire popularity just by giving a great deal of effort to public activities, often more than superior persons who criticize them are willing to devote to such causes. Many people acquire popularity by the friendly interest they show everybody, by a winsome smile and cordial manner. People who live self-absorbed lives are not popular and do not deserve to be. Any person can acquire a certain measure of popularity by manifesting interest and doing helpful things for others and performing service for the community.

Of all things from which gain is obtained, nothing is better than agriculture, nothing more productive, more delightful, more worthy of a man or of a freeman.—Cicero.

THE SPIRIT OF THE PRESS

There is a certain type of man in every community who poses as a good citizen. He breaks no law, lives morally, pays his honest debts and is never tangled up with the law in any manner. But he lives to himself, by himself and for himself exclusively. When the call is issued for volunteers to put across a community movement and give a boost, he never answers. When calamity has befallen people in certain localities and charity flies to their rescue, he is never one of their number. When money is needed for public enterprise his name is never on the list. When he sees some neighbor stuck in the mud he detours to avoid him. When his services are needed for public welfare he is never able to give them. In fact, if he stood on the shore and saw the ship of state sinking, he would never offer to throw in a line. And if all mankind was fashioned from this same kind of chap, what would happen? There would be no progress in municipal affairs, no development in the community, no churches, no institutions for the unfortunate and no improvement in our manner and mode of living.—Wetaskiwin Times.

WHAT IS YOUR POSITION

You are a booster or a knocker, there is no middle ground; to which class do you belong? The man who does most good for his home town is not always the man who receives the most credit. There are plenty of true boosters who not only do not allow the opportunity to pass to say a good word or do some act for the betterment of his home, but create opportunities to do so. He is the citizen of whom every one is proud, with some other good citizen who has not done so much work with the work of the others. The real honest to goodness booster is not jealous when the other is given credit, he gets his reward in the consciousness of having benefitted the town. Because one does not knock his home town, does nothing as a matter of fact one way or the other, will not relieve him of the charge of a knocker. Not to take an affirmative position in matters of interest to the town, and there are always matters of interest places one on the negative side. There is absolutely no way in which to remain neutral for if that position is attempted, there will necessarily be many who will construe it as being opposed to any proposition, and with the construction goes the influence. Be a real booster and let your position be so certain that those who run may read.

DO YOUR OWN THINKING

An urgent appeal to farmers to do their own thinking forms the basis of an article by Frank K. Healing, Morningstar, some extracts from which are given below: "Farmers! You are in the exact position of your bull! He is controlled by the ring in his nose—but the difference between you and the bull is that you have the thinking power to break loose from your bonds, but the bull hasn't. Why don't you break those bonds? And do it right away? You want better conditions—don't merely want them—make them!—Join the Pools! Show the world that you are able to conduct your own business in a better and sounder manner than it could ever have been done by those who don't know the rudiments of your business or commodities. And when you have control of your own commodities, set your own price, instead of letting others do it for you. You can do it—and with your own real wealth which you alone possess, instead of having to borrow from banks that which already belongs to you, namely your credit—This will be the saving of humanity offered by the farmers."

WE MUST SAVE OUR FORESTS

It is significant that many Canadian bank presidents and financial leaders in their annual reports on the business of the year 1926 laid stress on two things: (1) the importance of our forest industries to our domestic and export trade and, (2) the need for prompt and vigorous action to ensure that this great resource be not destroyed by forest fires.

Time was, in the memory of those still living, when the inhabitants of some Canadian cities were deluged when a pall of wood smoke swept over the district in early spring, for they said "That smoke is from 'slash' fires; there must have been much logging last winter; our river and harbour will soon be full of logs and business will be bristled." If they thought about other consequences at all they considered the "slash" fires would clear the land for farmers, and that if logs ever did fail there would be barge-loads and wagon loads of wheat to take their place.

But the succeeding generation has learned that much of this land, though capable of producing trees was not fitted to grow wheat and other farm crops, and that these repeated fires destroyed not only the young growth, the hope of the forest but, in some cases, even the very soil itself. And people are getting over the idea that it is a slur upon Canada to say that much of our land will not grow anything but trees, when these trees are by the lumberman be turned into the finest structural timbers in the world, and by the pulp and paper industry transformed into the multifarious valuable commodities for which the nations are competing with ever increasing eagerness. The satisfactory thing about Canada's timber situation is that, if Canadians will cultivate their forests instead of mining them, they will not only keep up in perpetuity the production of timber at the present rate but they will even be able to increase the annual cut without encroaching on the forest capital.

Our financial leaders stress the point that the forest is our second greatest natural resource in point of national income. And, on the administrative side, it has been shown that Canada has so handled her forest lands under a system of leases that over 90 per cent are still owned by the Crown, that is by the people, and that from these forests the Dominion and Provincial Governments draw revenues totalling over \$14,000,000 per year. That, in many respects, is a happy position and many states and nations cast envious eyes upon Canada's good fortune and good administration. The point made by our financial leaders is not that Canadians are sinners exceedingly above all other people in wasting their forest heritage but that with the experience of older nations to draw from and with the great opportunities of the twentieth century before them they are apparently in danger of allowing their forests to be reduced to the minimum by fire and wasteful cutting before they start to grow them up again. Planting forests is good but a system of so cutting and protecting existing forests that they will bring forth increasing crops, is better.

The forefathers of the present generation of Canadian legislators, administrators, lumbermen—did well, very well considering that they worked without maps, surveys, or timber estimates, and could not possibly foresee the tremendous demand for forest products that new needs and new inventions would bring, but if the present generation is not to be recreant to its great trust it must build on the foundation they laid. They in a large measure saved the forests for us—remember the people of Canada still own 90 per cent of the forest land—and we must save them for our successors, and for ourselves. The great engine for achieving this is at hand in an informed and alert public opinion and with the average citizen taking an interest in forest conservation and doing what his intelligence suggests, this vital question can be settled for all time.

PAINTING TIME

This is the time of year for all householders to get out and make their properties more presentable. There are numerous unsightly buildings going to decay and there are practically new buildings fast going to decay for the want of a fresh coat of paint. If paint was applied on all buildings and back yards and front lawns were cleaned up we would have a very desirable place to live in. And what is true of this town is also true of the countryside. If farmers realized what a difference paint made to the value of the farm, they would soon find a few hours of the daily round to do it or have it done. Paint can be obtained from local dealers at reasonable rates and no time should be lost in making this much needed improvement.

Ovaltine

Ovaltine is the ideal food-beverage for invalids, and for all who suffer from weak digestion and sleeplessness.

Ovaltine contains those natural elements which nourish the constitution till complete vitality is restored.

1 cup of Ovaltine contains more nourishment than 7 cups cocoa or 12 cups beef extract or 3 eggs.

Price per tin ... 90c—\$1.50.

RIGHT MUST PREVAIL

Petty jealousies, pin-head policies, private preferences and inconceivable ignorance have been the means of wrecking more than one proposed municipal hospital district in the province of Alberta. And the very same factors became manifest in the Hanna Municipal District when the first steps toward organization were undertaken. The district was organized, it is true, and a vast majority of votes were cast in favor of the scheme, as the system is basically sound, and the majority of the residents of the district saw their wishes fulfilled satisfactorily. The Hanna Municipal Hospital has rendered a great service to the district. This fact cannot be disputed. True, the institution can be improved, but Rome was not built in a day, and with time it is hoped that a state, much nearer perfection, will have been reached. The institution has rendered such a service that the demands upon it are increasing month by month, until the board is now faced with the necessity of increasing the accommodation of the building. The Department of Health has been approached on the matter, and the whole thing is now under proper consideration. Word comes that a section of the hospital to the west will oppose the enlargement of the present building, and that a cottage hospital is wanted in one of the western towns, instead of enlarging the present institution. In view of the suggestion, one is reminded that all the petty jealousies which beset the organization of the district in the first place, have not died out. Right must prevail, however, and if the greatest number of ratepayers are to be benefitted through the enlargement of a central institution, rather than through the erection of numerous scattered "cottage hospitals," then the present hospital must be enlarged. No policy which is not satisfactory to the majority can hope to gain much headway. Petty jealousy must not be allowed to handicap so important an institution as a hospital.—Hanna Herald.

Safer Driving for Everybody

Talk to the car owners of today and see how many of them are depending on the safety features of Firestone Gum-Dipped Balloons! For Firestone engineers have designed and built these big tires—with full appreciation of their responsibility for the safety and comfort of that big army who use the motor car.

With Firestone Balloons there is no skidding, slipping or sliding. The tread is broad and scientifically designed to hold the road—on oily boulevard, slushy highway or frozen, rutted places. You will be delighted in the way the tread seems to iron out the road beneath you, giving freedom from jolts or jar.

The Firestone process of Gum-Dipping adds so much strength and flexibility to these tires that you get much more mileage and are relieved of annoying tire troubles.

The Firestone Dealer will not only see that you have these better tires but he will give you the better service that goes with these tires. Ask him to call and explain details.

17 ACTIVE WELLS

Are in Operation in Turner Valley and
the Outlook is Indeed Good for a
Great Year

Two more new wells will be added shortly to the quota now pounding down to the pay sands in Turner Valley oilfield, when the Vulcan No. 2 and the New McDougall-Segur No. 2 get going within the next ten days or two weeks.

The Vulcan No. 2 is all rigged up with the exception of some small fittings and gas connections, and it is expected to "spud in" inside of the next ten days. The Vulcan No. 2 is located about midway between Vulcan No. 1 natural gasoline producer and the Spooner No. 1, that is, about a quarter mile west of Vulcan No. 1.

Vulcan No. 1 also is steadily producing at the rate of about 120 to 125 barrels per day of 73 gravity natural gasoline, but the net shipments run around 115 barrels daily for this product owing to the fact that from five to ten barrels per day are lost due to the necessity of "blowing out" the well several times in 24 hours. This is done to avoid the danger of accumulating icy slush in the well, with consequent dangerous rise of pressure. The company, said A.G. Spooner, managing director, on Monday morning, will not make any effort to clear the string of lost tools from the bottom of the No. 1 well or drill it any deeper, until such time as the No. 2 is drilled down to production. As the No. 1 stands it is a highly profitable producer on the basis of the present price of \$3.95 per barrel for the product.

Drilling will be resumed the first of next week on the McLeod No. 2, which is producing about 50 barrels per day of 73 gravity natural gasoline from the deep limestone. In the meantime, McLeod No. 3 is making fast time, and on Saturday the crew had reached the 1,250 foot level, making hole for the 12½ inch casing.

The Vulcan No. 2 and the New McDougall-Segur will make a total of seventeen active wells in Turner Valley, when they get going, the full list including: Dalhousie No. 1, No. 5 and No. 6, Royalty No. 7, Millerville (Imperial) No. 1, McLeod No. 3, Stockmen No. 1, Regent, Home No. 1, Sentinel, Vulcan No. 2, and McDougall-Segur No. 2, all of which are drilling, or will be drilling shortly; also Spooner No. 1, drilling past collapsed casing; Okalta, in the same position; Great West pulling casing; British Dominion pulling casing, and McLeod No. 2 to resume drilling next week.

THE FARM COLUMN

The diligent farmer plants trees, of which he himself will never see the fruit.—Cicero.

Agriculture can never flourish except under the protection of justice and moderation.—Gibbon.

Earth is here so kind, that just tinkle her with a hoe and she laughs with a harvest.—Douglas Jerrold.

Let us never forget that the cultivation of the earth is the most important labor of man.—Daniel Webster.

Agriculture is the foundation of manufacture, since the productions of nature are the materials of art.—Gibbon.

When tillage begins, other arts follow. The farmers, therefore, are the founders of human civilization.—Daniel Webster.

He was a very inferior farmer when he first began, and he is now fast rising from affluence to poverty.—Mark Twain.

We do not like hard work, but every man has an exceptional respect for tillage, and a feeling that this is the original calling of his race.—Emerson.

In every way agriculture is the first calling of mankind; it is the most honest, the most useful, and consequently the noblest which he can exercise.—Rousseau.

The requirements of a good farmer are at least four: The ability to make a full and comfortable living from the land; to rear a family carefully and well; to be of good service to the community; to leave the farm more productive than it was when he took it.—L. H. Bailey.

Agriculture can not afford to remain unorganized in this age of large scale business operations. Organization is necessary in agriculture, not merely for the purpose of regulating the movement of farm products into consumption; but to give farmers more control over the volume of their output.

A hint to farmers' wives: Tea leaves should not be thrown away. Place a pint of used leaves in a pail, pour over them one quart of boiling water, and leave for one hour. Strain and bottle the brown liquid. If used with a piece of soft flannel on mirrors, glasses or windows, it makes them shine like crystal. It is also a good cleanser for varnished wood and doors and furniture, also for linoleum. A little of the liquid put on flannel will clean linoleum better than water, and if the linoleum is polished afterward with a soft duster you will get a polish like that given by beeswax.

MEETING OF PRESBYTERY

The ministers and wives of the High River presbytery were the guests of Rev. J. L. and Mrs. Wright of Parkland on Tuesday. Rev. S. R. Hunt of Champion, F. and Mrs. Chapman of Carmangay, W. and Mrs. McNichol of High River, J. N. and Mrs. Wilkinson of Cayley, F. W. and Mrs. Locke of Nanton, F. C. and Mrs. Cooke, of Staveley, and R. W. and Mrs. Dalgleish of Claresholm, being present. After dinner, Rev. Mr. Dalgleish gave an informal talk on porcelain and china, after which the afternoon was spent in good fellowship. The chairman of the presbytery, Rev. F. W. Locke, expressed appreciation to Mr. and Mrs. Wright for their gracious hospitality. A special meeting of presbytery is called for May 4 in Nanton to consider the resignation of Rev. J. N. Wilkinson of Cayley, and any other emergent business.

Parliament approved of the vote of \$500,000 to continue cadet work in Canadian schools. It is five hundred thousand well spent.

CANADA AIR FORCE

Will be Rejuvenated—Nearly \$4,000,000 is Set Aside for Military and Civil Flying

An item of interest to our readers comes from Ottawa in which the replacement of a few obsolete war type aircraft by a flight of modern planes to familiarize officers of the Canadian air force in the handling of modern planes is provided for in the estimates passed recently by the Canadian parliament, according to the department of national defence. The air service estimates passed by the house totalled \$3,892,293 and of this \$1,669,694 was for military training and operation and \$2,222,593 for civil government operations and civil aviation.

Besides providing for new planes the former estimates will enable the training on a small scale of a reserve of officers and air staff. The estimate covering civil aviation consists mostly of government department.

The program includes this year air patrol for fire detection and suppression of over 70,000,000 acres of forested lands in eastern and northern Manitoba, and northern Saskatchewan and for fire detection patrols over 3,500,000 acres in the forest reserves in the foothills of the Rocky mountains and in western Alberta. The air survey includes work in every province in the Dominion. The growing importance of this feature of aviation has been recognized and the development of the resources of the north country are largely dependent on good maps being made available of remote districts now becoming of great importance through their mineral and forest wealth.

NEWS OF PROVINCE

The Elks at Strathmore have organized a brass band which will be under the jurisdiction of the local R.P.O.E.

C. Lahner has sold his half section and buildings for \$4,500 to C. Krom in of Calgary. Mr. Krom with his wife and six children have taken possession. Mr. Lahner has moved on to his half section, Lakeside ranch, which he purchased from Cecil Marshall.

A German scientist predicts the time when, after reading your morning paper, you can soak it in acids that will bring out the food value of the wood pulp, and eat it for breakfast. But we hope you will be able to afford something more appetizing.

R. B. Bennett, M.P., for Calgary, who was left 500 shares of the E. B. Eddy stock by the will of the late Mrs. Z. B. Eddy and 1007 by the will of J. T. Shireff which is valued at \$1500 per share, is said to be considering the sale of same which will free him for the duties of Conservative leader should he be elected next October.

The successful farmer must plan his work ahead of time. It is not enough that he have to plan for field work. He should always have a plan of what to do if it storms. He must foresee most things that are about to go wrong. More farmers fail because of poor farm production. This is to be expected, since the principles of crop growth, are much the same as they always were, while the proper organization of the farm changes with every new invention.

That Calgary district has again taken its place in the front rank as a producer of horses in the Dominion was pointed out by G. H. Hutton, President of the Calgary Rotary Club, who declared that 57 carloads of horses had been shipped east from Calgary in three weeks. Indicating the growth of the industry in the district he referred to the large number of entries received for this year's Horse Show, totalling more than 800, as compared with 600 last year.

Waterton National Park is to have a fish hatchery where trout fry will be propagated under artificial surroundings for the restocking of the mountain streams and lakes of the mountains and foothills in this part of the province. People of Southern Alberta will feel very thankful to the government at Ottawa for this decision. It will mean hundreds of miles of the finest trout streams on the American continent stocked with game fish that will lure the tourist and that will furnish the finest of recreation for our own residents. At one of the points of entry in Ontario, 53 per cent. of the auto tourists entering that province from the United States last year said they came for the fishing. As Ontario had nothing special to offer at the time in the way of "bait" we can only believe that it was really the fish they came after, says the Lethbridge Herald. Southern Alberta with its mountain lakes and streams can be made a veritable paradise for the fisherman, and the lure of the fighting trout will draw tourists by the increasing thousands. Every cent spent on the fish hatchery at Waterton National Park will be returned to us a hundred fold.

ORTHOPHONIC PHONOGRAPHS

HENRY W. ERNST,

Address:

Vulcan, Alberta.

946 7th St. A. South, Lethbridge.

The lure of golf is getting some otherwise good citizens and to show how it gets hold this story of last summer will illustrate the point. Dr. Gilchrist and a youth had spent the whole day on the golf links, and had had some remarkable close and exciting games. As they left for home the Doctor remarked: "Hay, non, but it's been a grand day!" "It has," the youth assented. "Think ye could come again on the morrow, lad?" "Well," the young man answered reflectively, "I was to be married, but I daresay I can put it off."

Prof. W. L. Carlyle, manager of the Prince of Wales' ranch, announces the sale of Somers Jester, out of Flood by Will Somers, to Frank Belan of Vancouver, for \$1500. This colt is a full brother to Somers heir.

For this season's grain crop the following suggestions will have a very important bearing on the returns next fall: Have your seed tested for germination; Have the seed cleaned properly; Do not sow mixed varieties; Use varieties suitable to your district; Sow five or ten acres of registered seed each year on clean land.

Forming a vanguard of 110 British families that will come to settle in the Calgary district this year, F. McLaren, his wife and one child reached Calgary en route to Olds where they will take up land under the 3,000 British families plan. Mr. McLaren is a farmer of experience who hails from Forfarshire, Scotland. According to plan the family was met at Olds by A. Findlater, of the Land Settlement Board, and taken to the new home on an improved farm, where buildings have been erected and stock and equipment installed.

KIRKCALDY NEWS

Mr. Ben Orton came up from Taber to spend Easter with his sisters and brother in Vulcan.

Auburn school merits for Easter examinations: Kathleen Colwell 89; Richard Rench 84; Evan Munro 84; Muriel Johnston 83; Roy Swanson 82; Sylvester Johnston 79; Ruth Johnston 77; Clarice Rench 76; Erma Swanson 76; Bobbie Rench 76; Arthur Swanson 74; Francis Johnston 69; Lexington Johnston 64; Ures Johnston 61; Miss M. E. Barker, teacher.

REID HILL NEWS

Three tables of bridge were played at the home of Mr. and Mrs. Jack McKay on Wednesday.

Miss Mae Dairs is in the district coming up from Portland, Ore., to the farm of Mr. Frank Dairs, her father. Mr. Sam Burg has purchased the land recently vacated by Pete Hansen and will take possession in the fall, meanwhile hiring the work done.

On Saturday, the young son of Mr. Jack Lucas had the misfortune to fall from a democrat cutting his head so severely, twelve stitches were required in dressing it.

ENSIGN NEWS

A. M. Myers is sporting a new Chevrolet Coupe.

Jack McFadden and wife are starting soon on a motor trip to Ontario.

Rev. Mr. Harden preached to a full house on Sunday and administered sacrament at the close of service.

High winds and house cleaning are a bad combination to try the patience of the careful house keeper these days.

Any auto drivers who were unfortunate enough to be out driving late Sunday night report difficulty in keeping to the road owing to the dust and sand blowing. Some were forced to tie up till morning.

It is our sad duty to report the death of Mrs. W. A. Tibbets who has resided in the Ensign district for a number of years, after an illness of one week with pneumonia. Having had pneumonia on two different previous occasions her lungs were weakened to withstand this attack, and while making a valiant fight, she passed away on Wednesday morning.

Funeral was conducted from the family residence on Thursday afternoon by Rev. Mr. Brunton of Vulcan which was largely attended. Many expressions of sympathy were made through floral wreaths and sprays and the bereaved family have the deep sympathy of the community. Besides the husband, W. A. Tibbets, three daughters mourn the loss of their mother. Mrs. G. Hoadley, Jr., Mrs. Sanderson and Miss Myrtle Palmer.

ITEMS OF INTEREST

Two men were arrested in New York on a charge of defrauding women of \$500,000 yearly through selling bogus anti fat preparations.

Land values in the Cayley district is on the up grade as evidenced by the sale recently of a raw quarter section of land belonging to Mr. J. A. Wickens to Mr. C. L. Tiffen, of Victoria for the consideration of \$50 per acre.

Mr. and Mrs. O. E. Olson arrived in Blackie Monday, April 16 from Sooke B.C. Mr. Olson will take charge of Dinton municipal work. They motored through via Seattle, Portland, Spokane, Sand Point, Idaho, Thompson Falls, Missouri, Great Falls, Butte Montana, through by Sweet Grass. Mr. Olson reports that the storm and bad roads delayed him three days. He was caught in a terrific snow and rain storm between Collins and Shelby and had to put up at a farm house for shelter from the elements.

A very sad accident occurred in Nanton April 14th, when Mr. Lee, who was employed by the Calgary Power Co. to unload poles, had both legs broken. The poles were loaded on cars and in cutting the wires which held them together they rolled over on him. Both legs were broken and one very badly crushed. It was found necessary to amputate one leg between the ankle and knee. Mr. Lee is a married man with two small children and has been in Nanton about a year. He had just begun work the day before with the Calgary Power Co.

Captain J. Liddington of Thame, England, who made a shipment of thoroughbred horses from England to Canada was killed while enroute from Ottawa to the west. Major Liddington, his father, a well known horseman in England, was taken ill at Ottawa and could not accompany his son. From newspaper reports of the train wreck which occurred at Horne Payne, eighteen head were killed. The horses were believed to have all won races in the old country and were a valuable collection. Major Liddington and son have a horse ranch near Pridis and had planned on returning to England for another shipment in August.

Hugh Mackintosh, well known farmer of Macleod, left recently for Moose Jaw, to take over and superintend the forestry car or tree planting car of the Canadian Forestry Association of Canada, during its itinerary in Alberta. It will be remembered that this car for many years was in charge of the late Archie Mitchell who was known all over western Canada as "the tree man." It seems fitting that Mr. Mackintosh, who was a very old friend of Mr. Mitchell's, should take his place, even for a short time, and take the car into Alberta for the first time after the lamented death of Mr. Mitchell, for no one knows the methods and principals of Mr. Mitchell better than Mr. Mackintosh.

ITEMS OF INTEREST

Mrs. W. W. Grant and family, spent the week with Mr. and Mrs. John Brown, west High River.

The city of Calgary extended a very warm welcome to Lord and Lady W. lington today.

Any child can throw a glass of water on the floor, but all the wise scientists can not pick that water up. That building of yours requires a fresh coat of paint and you will invest your money wisely when you freshen up the surface of your building.

Mr. W. W. Grant, radio broadcaster is engaged at present in installing one of the largest broadcasting stations in Canada at Red Deer.

Parliament did all its business in 54 days this year. Shows what our legislators can do when speed is the ruling passion.

Viscount Willingdon says he is a confirmed optimist where Canada is concerned. How could he be otherwise after seeing the West?

Guy Weadick who has been on an extended tour of the Eastern States will return to Calgary on Friday and will receive an official welcome. He will deliver one of his unique talks to "You Birds" on Friday evening.

Bill Thompson, Chicago's new mayor, won his election largely by twisting the British lion's tail and blatantly asserting on the hustings that he would keep King George out of Chicago. Thompson is evidently a silly ass.

Beef cattle reached the highest price since 1920 on the Calgary stock market on Wednesday last. Top steers bringing 9 cents. At the present time there is practically none to be had and little prospects of any until grass feed is had.

Dr. MacEachern, director of hospital activities for the American College of Surgeons, who has over 2600 hospitals under his survey for standardization, complimented Alberta on its hospitals on the excellence of its healing institutions and for the capable administration they were under.

A change in ownership of the Cayley Motors occurred last week when Mr. Watson sold out his interests to Messrs. McNance & Smyth of Cochrane. It is the intention of the new owners to add new equipment and to otherwise improve the premises with the idea of giving their patrons prompt and efficient service.

In spite of the troubles in China an increased demand from the Orient for Western Canada's wheat is being recorded. George Melvor, sales manager of the Wheat Pool, reports that heavy shipments are being made and that the indications are that these will be increased.

The policeman is supposed to lead an extra-hazardous life. Yet in New York, in the last three years, twenty-seven street cleaners have been killed to thirty policemen—and there are twice as many policemen as street cleaners. The answer? It is the motor car. Reckless automobile drivers have made the street a place of constant danger, even for those who have the fullest right to use it.

Mr. Robt. Wilkinson returned from Great Falls last Saturday after spending a week in Montana. While down there he was successful in completing a very satisfactory sale of part of the Ellis Oil Co.'s properties. He reports conditions in Montana as wintry in the extreme with almost a foot of snow in the Kevin-Sunburst oil field and the roads in an impassible condition.

Following the reception of a letter from Liquor Commissioner R. J. Dinning that all beer rooms be closed on Thanksgiving and Christmas days, the provincial government was approached recently by the Hotelmen's Association protesting against the same. They object against the order as it may lead to similar proposals for other holidays. Meanwhile there is no doubt but that the Commissioner's proposals will be carried out by the government.

The shipment of beef cattle from Blackie last week by Messrs. O. F. Malmberg & Sons was said to be the finest bunch ever shipped out of Calgary Stock Yards. There were 108 head in the shipment and the average weight was 1195 lbs. and the average net price received was \$100.41. The cattle were raised by Malmberg & Sons and bears their own brand, were pastured down south and finished on the Blackie farm. These cattle had a mixture of Shorthorn, Galloway and Hereford breeding.

Okotoks Lodge No. 31 B.P.O.E. was instituted at Okotoks on Wednesday evening, April 13 with about 175 members of the lodge of Alberta attending. The following officers were elected: P.E.R., John J. Windle; E.R., M. MacGowan; Lead Kt., F. E. McKay; Loyal K.T., Fred Cameron; secretary, L. W. Checkley; treasurer, A. B. King; Enq. Lovorn Overland; Chap. Wm. Fisher; I.G., Wm. Linham; Tyler, Ed. S. Aldridge; Trustees, A. D. McLeod, Joseph Miller, Wm. Linham. Brother Dr. J. L. Gibson, assisted by Calgary, High River officers and visitors, conducted the opening ceremony.

WEATHER AND CROPS

After favorable conditions in weather and soil, work on the land had been quite generally started, when on last Sunday night a terrific wind and dust storm started, which is said to have been one of the hardest ever experienced in these parts, and put an end to all activities. This was followed with severe cold, touching below zero point at times and continuing with gradual abatement until this Thursday morning, with forecasts of warmer, when it broke fine and looks now quite settled. The frost was out of the top soil and allowed for working the ground, but there is yet plenty of it below to the depth of about three feet. Work will at once be now started again and seeding will be generally undertaken as soon as is possible and rushed to completion.

PRINCE RUPERT TERMINAL

The Alberta Wheat Pool has loaded twenty-two ships with wheat from the 1926 crop at Prince Rupert and expects to bring the total up to twenty-four before the crop movement is ended this spring. The Alberta Pool terminal at Rupert has already handled 5,188,000 bushels and the total will reach 5,788,000 bushels within a few weeks. This is a larger total than was anticipated last fall. The Prince Rupert house was built and is owned by the Canadian Government, has a capacity of 1,250,000 bushels and is probably the fastest handling terminal on the coast. It is under lease to the Alberta Pool for a term of two years. Joseph Bennett is superintendent of this elevator. Through the Pool's extensive operation, the ocean freight differential has disappeared and grain is shipped to Europe from Prince Rupert at the same rate as from Vancouver. Of the twenty-four ships already loaded or committed, six carried grain to the Orient and thirteen to Europe. Previous to the Pool loading the Rupert terminal, no wheat has been shipped from that port.

THE ORIENTAL QUESTION

Living standards are to blame. We have short hours, union pay, early closings, half holidays. The Chinaman has none of these. He works till he is hungry and not by the clock, by the sun and not by his watch. It is those very "easy terms" life of ours that mitigate in favor of the oriental. The remedy lies in different standards of living, which is less the white man's burden, less conceit about ourselves, fewer things to buy on time payments and less expense to get by with. It should be cheaper to be born, cheaper to live and cheaper to die. But we can't afford to change the Chinese and Japs into the sea until we are prepared to step into their shoes in our economic problems.—The Ashcroft Journal, Ashcroft.

Teacher: "Willie, can you name a city in Alaska?" Willie: "No, m'm."

"Correct."

"I never knew Jones had twins."

"My dear! He married a telephone girl, and, of course, she gave him the wrong number."

Arthur W. Cutten, a leading trader on the Chicago board of trade testified before the Curran legislative committee, investigating grain marketing that wheat fell 30 cents a bushel in May 1922, after the board's rules committee declared there were no warehouse accommodations for incoming wheat. He saw no emergency for such a measure at that time, he said Cutten said one of the evils that should be eradicated was the fact that warehouses were largely controlled by elevator owners.

ENSIGN

The late John McKinney of Ottawa, left an estate of \$73,884. James McKinney of Clareholm, a brother, one of the executors, is bequeathed \$5,000. The deceased left \$5000 to the Ottawa Civic Hospital, \$5000 to the Salvation Army, and an unestimated residue to Methodist foreign missions. The largest beneficiary is a sister of deceased, Agness Victoria McKinnay, who is willed \$20,000.

FORM BALL LEAGUE

A meeting of the Alberta Amateur Baseball Association was held in the Board of Trade rooms, Calgary, on Wednesday April 20. Delegates from all over the province. The following officers were elected: Hon. Pres., C. A. Hayden, and J. A. McKee, Calgary President, C. B. Chessman, Cardston; Vice Presidents, Schaffer of Calgary, and L. V. Leitch of Acme; Past President, W. B. Bellamy of Wetaskiwin; Secy.-Treas., E. D. Battum, Calgary.

The executive will consist of members of affiliated leagues. One of the main items of business discussed was in Senior A class ball, the mingling of amateurs and professionals was to be protected. Following the meeting of the association a meeting of the Alberta Southern League was held and following teams were admitted into the league, namely, Staveland, Claresholm, High River, Calgary Hustlers, Calgary Athletics and Calgary East End. The schedule for this league will open on the 18th day of May. The following officers were elected: President, V.C.W. Stanley, High River; Vice Pres. Harry Shaver, Calgary; Secy.-Treas., W. D. Dingle, Calgary.

The executive committee will be composed of one member from each club.

The Alberta Southern will play Senior A class ball. Three umpires are to be engaged who will take charge of all games played.

The 24th of May was reserved for a ball tournament day in High River. For this season's grain crop the following suggestions will have a very important bearing on the returns next fall: Have your seed tested for germination; Have the seed cleaned properly; Do not sow mixed varieties; Use varieties suitable to your district; Sow five or ten acres of registered seed each year on clean land.

NOTABLE GUESTS

Seventeen members of the Australian Delegation to the United States left the field of their researches recently, crossed the Detroit River and spent a few hours visiting the home offices and factory of the Ford Motor Company of Canada, Limited. "It's like being home again," commented one of the visitors as they set foot on Canadian soil. "We are about half way through a trip of amazing interest and diversity and our commission does not instruct us to investigate conditions in Canadian industry, but we welcomed an opportunity to spend a few hours with our cousins in Canada as an interlude in our journey among our friends on the other side of the boundary."

The delegation is nominated by the Commonwealth Government to investigate industrial conditions in the United States and comprises representatives of employer interests and employees, together with several press observers. It arrived in Vancouver in February and has been progressing eastward through the principal industrial centres. It is armed with a questionnaire concerning employment conditions and visits the large industries on its way, observes conditions under which men are employed and submits the questionnaire which strives to arrive at bases of wages, hours, training, etc., to the employers. W. R. Campbell, Vice-President and Treasurer of the Ford Motor Company of Canada received the delegates in his offices after they had completed a tour of the factory and there was an interested scratching of pencils as he outlined the conditions of employment in the Empire's largest automobile factory. A point which keenly interested the visitors was the obviously British character of the factory's personnel. "We have noted with very much interest," said E. A. Doyle of Melbourne, "that practically all of your workmen here are Britishers. In the factories across the line foreigners seem to predominate."

According to R. J. Murphy, an official in the Australian Government Armoury at Melbourne, where the manufacture of rifles, cannon and other instruments of warfare is a state enterprise, the purpose of the delegation is to secure material from which the essentials of an enduring understanding between employer and employee in the Commonwealth may be extracted. The relation between the two parties, Mr. Murphy said, have not been as intimate as is desirable in the best interests of the nation and the purpose of the present delegation is to report upon conditions in the United States and to recommend such measures as may seem to meet the requirements of the situation at home. The delegation with equal representation of labor and employers will, it is expected, arrive at an impartial conclusion and its findings are expected to be of the greatest value to the administration.

Mr. Murphy referred to the activities of the Ford Motor Company of Australia Pty. Ltd. and of the Ford Manufacturing Company of Australia, both of which have head offices at Geelong and are affiliated with the Ford Motor Company of Canada. The Commonwealth, he said, welcomed the advent of these British-owned motor companies which quickly attained to positions of importance in the industrial life of the country. The Ford car, assembled by the Australian company from parts built in the factory of the Ford Motor Company of Canada, and fitted with bodies built by the Ford Manufacturing Company in Geelong, is recognized as the produce of national enterprise. Its popularity throughout the country has been due to its success in meeting the many difficult conditions of transport encountered in the rural districts. It has been an invaluable asset to rural and urban life.

In greeting the visitors at the factory, Mr. Campbell declared that they were doubly welcome as Britishers from a sister Dominion. "We find it difficult to convey to the people in the far away Colonies just how truly British an enterprise this is," he said. "When you pay us such a visit we are able to point to the evidence everywhere about you."

Members of the party who visited the Ford Motor Company of Canada were: Mr. and Mrs. A. J. McNeil, Perth; M. P. Campbell and J. C. Valentine, Brisbane; Mr. and Mrs. E. A. Doyle, H. E. Guy and R. J. Murphy, Melbourne; Mr. and Mrs. C. Ludowici, R. E. Ludowici, Jr., and E. Grayndler, M.L.C., Sydney; Mr. and Mrs. H. C. Adam and D. Cameron, Victoria; C. J. Munden and A. McInnes, Adelaide.

The requirements of a good farmer are at least four: The ability to make a full and comfortable living from the land; to rear a family carefully and well; to be of good service to the community; to leave the farm more productive than it was when he took it.—L. H. Bailey.

W. B. THORNE DEAD

In the death of W. B. Thorne of Aldersyde, Alberta, on April 14, the province has lost an estimable citizen and one who will be greatly missed by a large circle of friends throughout the province who learned to esteem him very highly for his many fine qualities of hand and heart. He was a public spirited gentleman and could be counted on to assist in any worthy community cause. During his years of activity in Alberta, he had served as reeve and councillor of his municipality and was a candidate for parliamentary honors in 1905 when he ran as an Independent against Mr. Robertson and Mr. Wallace. For years he held the position of Justice of the Peace and his decisions were based always on justice and fair play. He was co-founder with his friend, the late George Lane of the Canadian Percheron Horse Breeders' Association of which he was president for four years prior to his death and since its inception he has been president for a total of 11 years. He was born near Woodstock, N.B., in the year 1848 and arrived in High River district from Montana in the year 1887. He is survived by three sons, Jewett, Milton, and Arthur. The funeral took place at High River on Sunday, April 16 and was very largely attended by neighbors and friends from far and near. Impressive funeral services were conducted at Chalmers United Church by Rev. Wm. McNichol interment being made in Highwood cemetery. The following were pallbearers: Messrs. A. L. Dollar, W. L. Carlyle, Jas. Bewes, Alf. Goodwin, Harry Connell and Jas. McCullough.

The merchants of Kincairdine have passed a resolution not to contribute to any canvassers or ticket sellers who canvass the business section of the town. The thing has been so overdone as to become a nuisance.

Canada's closest-priced Six
rivals the highest-priced in quality and performance

THERE'S a get-up-and-go about Hupmobile Six performance that appeals to you at once as entirely out of the ordinary.

And the more you try to find its parallel among ordinary sixes under \$2000, the more surely you realize this Six is unique in its price-class—in fact, has no rival anywhere save among the highest-priced sixes on the market.

Perfectly logical, when you consider that Hupmobile has made this the closest-priced Six in the industry by actually adding a full 10 per cent extra quality without adding a cent to its purchase price.

Come see the new Hupmobile Six. Drive it! Experience the performance thrills of the most expensive type of six-cylinder motoring which it assures you at a very substantial saving.

Every Worth-While Feature
The Modern Car Should Have
